A POWERFUL OPS SOLUTION

Performance meets Power - The 8th Generation Intel® Core™ i5 Processors provides a new class of embedded computing with amazing new features. Three times more powerful than our Economical OPS this model is ideal for real-time rendering and 3D applications.

Solid-State Drive - Uses flash memory to store data, which provides better performance and reliability over an HDD as well as faster start up speed. Up to 10 times faster than a traditional hard drive.

Flexible Working - Run a wide range of different operating systems like Windows 8, Windows 10 or Linux to suit your way of working.

Intel 4K Graphics - Experience a remarkable 4K resolution, with faster frame rates and outstanding visual details thanks to the Intel® HD Graphics 655 card, built for compute-intensive applications.

Fully Embedded Solution - All the connectors are contained within the display including power and both video and audio signals so no external cables are required.

Quality Commitment - Built with industrial grade components you can be confident in the reliability of our product and so offer a 3 year warranty on the OPS computer

Economical - Utilise a higher performance level while consuming less power.
