

G-TOUCH® OPAL FEATURES

With a commitment to user experience, the G-Touch® Opal transcends traditional screen functionalities. Standing as a beacon of efficiency, its intuitive design fosters an immersive environment where collaboration between a multitude of users becomes second nature, turning the workplace or classroom into a hub of creativity and synergy. By seamlessly weaving productivity and well-being into the very fabric of your workflow, this cutting-edge technology is poised to become an indispensable companion in your pursuit of excellence and innovation.

Multi-Touch

With multi-touch technology several people are able to work and collaborate on the screen at once. This allows you to also benefit from multi-touch software.

Dual Pen

The intuitive G-Touch® screen can recognise when you are using a pen or finger.

OPS Slot

All G-Touch® models have the option to add a built-in PC. Our simple 'slide and secure' fitting options allow for easy upgrades.

BUILT-IN ANDROID

The G-Touch® Opal screen comes complete with the latest Android 11 operating system with the ability to download apps from the Genee App Store. Seamlessly integrate technology such as our Genee Vision Visualisers.

NATURAL WRITING EXPERIENCE

The G-Touch® Opal has a short response time which allows for a natural writing experience with next to no lag. All G-Touch® Interactive Displays also come with a magnetic pen which you can use for precise handwriting.

INTERGRATED MDM SOLUTION

G-Touch® Opal Range integrates Mobile Device Management (MDM), providing centralised control for multiple screens via a user-friendly cloud platform, allowing you to manage multiple devices, share messages, and perform software updates.

USB TYPE C

USB Type C is the latest USB connector which simplifies the amount of cables you need to connect a device to a touchscreen. You can now use one cable to transmit data, audio, video, ethernet, touch and power.

Gesture Control

G-Touch® is designed for utmost user-friendliness, minimising screen touches with intuitive gestures. Simple swipes enable complex functions, mirroring familiar phone gestures like pinch to zoom and image rotation on our touchscreens.

Blue Light Filter

The blue light filter decreases the amount of blue light displayed on the screen of the device. This can help reduce digital eye strain, which will make your eyes feel less tired by the end of the day.

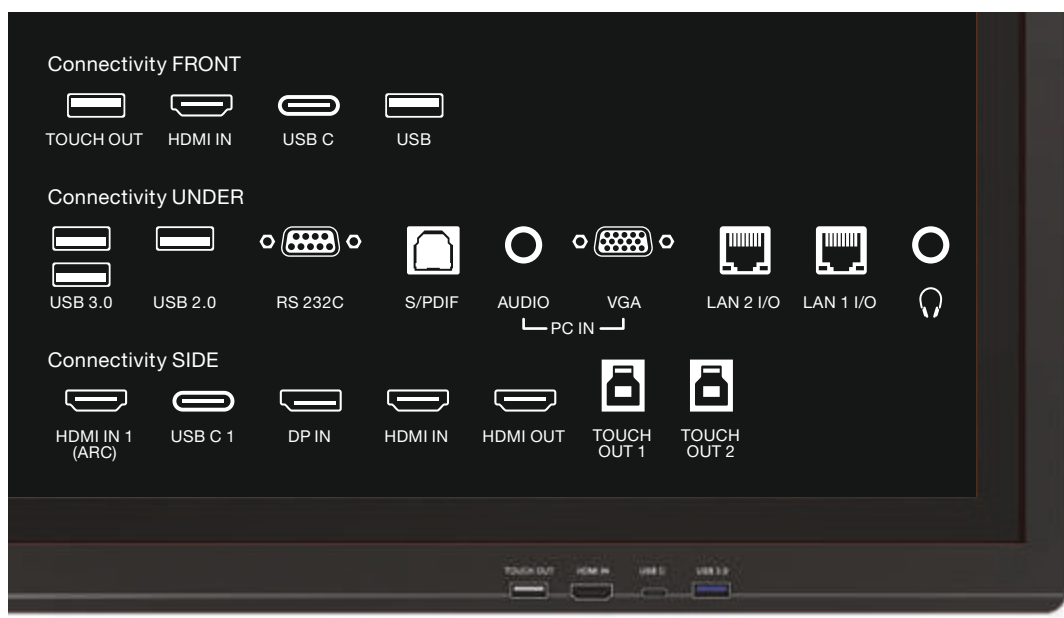

Anti-Glare

All of our G-Touch® screens have the latest anti-glare technology. This coupled with the brightness of our LED panel enable content to be viewed in any environment.

CONNECTIVITY VARIOUS INPUTS AND OUTPUTS

Buttons and connection ports are now front facing for easy access, and side facing for a neater and more permanent option, allowing devices to be connected through a range of multiple inputs; this makes it ideal for a variation between permanent and visiting staff and guests. A multitude of different devices can be connected through a range of inputs and outputs, allowing the G-Touch® Opal to easily integrate with all standard technology already in the classroom and workplaces.

AUTO GENERATE CALENDAR INVITES FOR EVENTS

Register will now automatically email an Outlook calendar invite to all invited members of a meeting.

Other Features of Genee Register

Customisation	Event Search
Meetings	Meetings
Sign in & Out	Remote Support
Executive View	Sign in Staff
Reports	User Management
SSPs	Multiple Sites / Points of Entry
SSS Registered Features of applications	Event Book Access

GENEE WIRELESS DISPLAY MIRRORING

The G-Touch® Opal Range has built-in wireless display mirroring. This allows everyone in the room to cast their Apple, Google, Android or PC device directly to the screen. Allowing the option for immediate feedback by reviewing answers on the screen.

The G-Touch® Opal allows users to cast their Google and Apple devices without the need for third-party applications. Simply, press screen mirroring on your device, enter the code which is displayed on the touchscreen and you will be connected.

GENEE APP STORE

“ You wouldn’t buy a mobile device without an accompanying App Store, so why would you purchase a touchscreen without one?”

The Gem Series comes with the Genee App Store pre-installed. The store provides quick and easy access to a range of applications. The Genee App store has hundreds of apps with over 80% being free of charge. GEM Series is compatible with:

Microsoft
Teams

Zoom

Google
Workspace

Microsoft
Office
Onedrive

Dropbox

Google
Meet

SOFTWARE SPOTLIGHT

SPARK II

SPARK II is an interactive screen software. Designed to work on both interactive whiteboards and

LED touchscreens, it provides a presenter or teacher with an infinite canvas area. As well as importing documents and images from local files or the internet, this software will run over the top of other applications allowing you to annotate, highlight and manipulate objects. SPARK II is available for FREE on all G-Touch® screens.

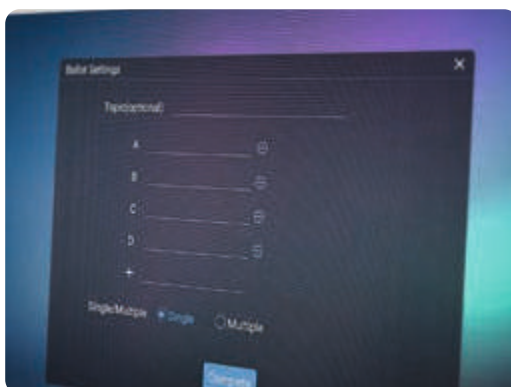

Watch the SPARK II product video here:

<https://www.youtube.com/watch?v=pVfQpiJeBTE>

G-VOTE

The built in G-Touch® voting system allows the presenter to create polls within seconds and the audience to scan a QR code and answer instantly. Once the audience has voted the presenters can see the votes and even view it as a pie chart and import it directly into SPARK Lite!

SERVICES

MDM GENEE CONTROL

Mobile Device Management (MDM) provides you with complete control of all your G-Touch® screens through a single, cloud-based platform, enabling complex operations and tasks to be completed in a refreshingly straightforward manner.

- Control multiple devices at once.
- Ability to share messages.
- Updating software.

With the G-Touch® Opal Range, the MDM solution is integrated into the user interface, ensuring a streamlined and intuitive experience, and aligning with our commitment to providing an effortless, comprehensive interactive solution.

WARRANTY & IN-HOUSE TECHNICAL TEAM

We provide a warranty across all Genee products ranging from 3-5 years. Our Genee technical team are there to assist with any problems you may have with your Genee products, within your warranty period or outside the warranty period. Genee ensures to provide the ultimate customer experience, which is why Genee is one of the few AV manufacturers that employs its own dedicated internal UK-based technical team, rather than sub-contracting to a third party. You can be rest assured when it comes to our hardware support, it will be a Genee-qualified engineer who will provide the best customer service and support.

TRAINING

Our training programmes are delivered by fully qualified Genee staff. This will enable you to fully utilise your new technology to enhance learning and presentations ultimately increasing engagement levels.

This programme is designed for skills training, building on the content of each introductory training session. Receive your first introductory training session for free when you purchase any G-Touch® product.

WHAT'S INCLUDED IN THE BOX?

Inside the box includes everything you need to get going!

2x Antennas

1x Remote Control

1x Magnetic Pen

1x USB

1x VGA

1x 3.5mm Audio

WHAT'S INCLUDED IN THE BOX?

Continued

1x USB Type C

1x HDMI

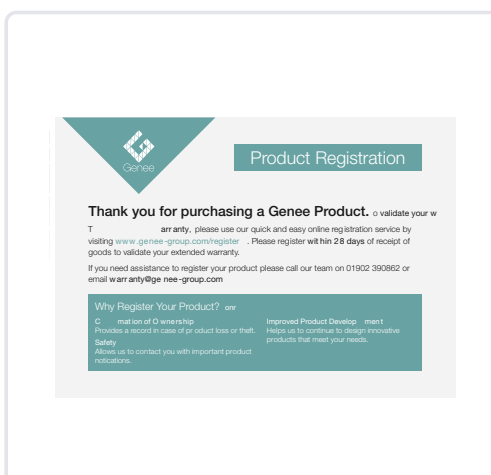

1x Power Cable

1x European Power Cable

1x Instruction Manual

1x Warranty Registration Card

The solution that fits your needs. Depending on your requirements we have a range of accessories that are interoperable with our G-Touch[®] Range.
