

ModBOXX 30 Specification

Charge, store, secure and transport 30 iPads

“Best Value iPad or Tablet USB Charging Trolley”

Manufactured in Norfolk, ModBOXX 30 promotes a lightweight, high-impact construction, which offers excellent mobility and robustness.

This economical charging cart brings tablets to wherever learning is taking place, providing a cost-effective solution to share tablets between classes.

KEY FEATURES

Lightweight & portable

ModBOXX 30 promotes a lightweight, high-impact construction which offer excellent mobility and added robustness to deal with the high demands of the modern classroom. ModBOXX 30 is transported on heavy duty locking casters (2 locking) for added stability and mobility.

Colour & style

ModBOXX 30 is available in cool grey shades and other colours on request to help keep laptops organised between departments or year groups.

Easy to use, neat and tidy

ModBOXX 30 is quick and easy to set up with neat USB cable storage which eliminates cable spaghetti.

Low maintenance

All electronics are housed in an easily removable power module which in the event of a problem greatly reduces the down time and cost as well as extending the life of the trolley.

Certification

ModBOXX 30 features a 2 year guarantee. As with all Nuwco products ModBOXX 30 has been fully test and CE compliant ensuring the highest levels of electrical safety and complying with all the latest HSE manufacturing guidelines.

Free UK Mainland Delivery
