## True 4K Output Resolution

The U70i's high-quality 4K resolution and 13-megapixel sensor ensure that the video and images you capture are super clear, providing an immersive experience for students. Use the U70i to give your students enhanced hybrid distance learning that's more engaging and accessible.

## 16X Zoom and A3 Shooting Area

A huge shooting area lets teachers capture more and makes it easier for students to see every detail. Also, the U70i's auto-focus ensures that your content is always in focus, and with a 16X digital zoom, you can always zoom in to get a closer look.

## AI Acoustics and Image Rotation

AI Noise Reduction efficiently reduces unwanted sounds and background noise so you can lecture capture with better audio quality. Also, AI Image Rotation ensures that the people and materials in your images are always displayed at the correct angle.

## Convenient Storage and a Non-Slip Design

The storage slot for the camera head provides a convenient way to store the U70i when you're not using it, protecting the device from damage and ensuring it's always ready for your next shoot. Moreover, the U70i's anti-slip rubber base provides a stable platform for the camera while you're shooting from any angle.

## User-Friendly Functions Buttons

The function buttons located near the camera head provide convenient and efficient camera control. With all the necessary settings right at your fingertips, the U70i is extremely user-friendly, letting you focus on capturing the perfect shot without worrying about complicated settings or extra steps.

## Free AVerTouch Software Enhances Remote Teaching

Simply connect your U70i with one touch to immediately start sharing content and annotating as you go. With its easy and intuitive functions — as well as cloud sync for automatic backups of your annotations, captures, and recordings — this software enriches the teaching experience with unprecedented interactivity. You can even capture images and videos via Google Classroom by connecting U70i to AVerTouch software.

**With the U70i, you can display...**

- ▶ **Film slides / Filmstrips**
- 🏃 **Real-time movements**
- 📄 **Documents**
- 🧊 **3D objects**
- 🩻 **X-rays**

**Show images to your audience through...**

- 🖥 **Interactive flat panel**
