

Budget / Portable Visualiser

“Interactive whiteboard friendly, the Genee Vision 50 works with all leading brands.”

Incorporating Genee advanced technologies; the newest budget addition to the Genee Visualiser range offers the ultimate portable solution.

The visualiser is easy to carry with a weight of just 0.9 kg and still packs powerful features such as a 5 million pixel resolution camera, LED light and advanced Genee Vision software.

With the Genee Vision 50, it is easy to enlarge source materials, display 3D objects, capture images and record movies. The Genee Vision 50 is easy-to-use with no separate power supply required. Simply plug into the USB port, launch the Genee Vision software and go!

The Genee Vision 50 offers one cable convenience, no confusing cables to sort out that can bring your lesson plan or presentation to a stand still. No confusing buttons to fumble with on the unit because you use the mouse on your computer.

- No separate power supply required
- LED lighting
- Windows XP / Vista / Win 7
- 5 Million pixel resolution
- Easy to carry, weight just 0.9 kg
- Digital zoom
- Focus free camera
- Free software
- 5 year warranty

Genee Vision advanced software

Genee Vision software enables you to connect your digital visualiser to your computer for viewing, capturing and manipulation of video and still images.

Optimised for use in a classroom setting as well as any environment in which digital imaging is required. Key features include: multi-camera support, OCR text recognition, digital zoom, freeze function, capture images, record videos and much more.
